

Fast Stream Selection

Work Style Questionnaire Part 1 Candidate Feedback Report

Thank you for undertaking this assessment. This feedback sheet provides a summary of what was assessed and then describes your overall performance, along with some relevant development suggestions. Note that this feedback does not indicate if you passed or failed the online test phase, which is determined by how well you performed overall, across tests, relative to other Fast Stream applicants.

Description

The Work Style Questionnaire Part 1 asked you to rate yourself against a range of multiple-choice questions that relate to a broad range of qualities and strengths that are important to success on the Fast Stream. Your score is then compared to those of other Fast Stream candidates.

Feedback on performance

Overall, your responses to the questionnaire indicate that your work style preferences are mostly aligned with the broad range of workplace demands of the Fast Stream. How you like to work and the Fast Stream role requirements tend to match as much as most other applicants.

Development feedback

Although you may be comfortable with some of the demands on you in the Fast Stream, there might be occasions where you have to try harder to work outside your usual comfort zone. You may need to adapt your style to best suit the requirements of Fast Stream roles.
